

# LEADSAFECNY

## A GLIMPSE AT OUR NEIGHBORHOOD INVESTMENTS

In 2018, the Community Foundation committed to invest \$2 million to help put an end to childhood lead poisoning in Syracuse. Here is a look at the impact our investments have made so far.

### STRATEGY 1: HOUSING CONSTRUCTION, RENOVATIONS & REPAIRS

**Amount Invested to Date: \$793,750**

The likelihood of lead paint exposure increases in rental properties and two family homes that haven't been updated and/or routinely maintained, putting families living in these homes at risk. We are collaborating with organizations to provide home renovations and/or new construction in the census tracts that have the highest level of lead poisoning.

**Outcomes to Date:**

- 736 Windows Replaced
- 101 Doors Replaced
- 112 Safe, Affordable Rental Units Constructed or Renovated

### STRATEGY 2: EDUCATION & AWARENESS

**Amount Invested to Date: \$88,473**

Lead poisoning can go undetected and symptoms of elevated blood lead levels can mimic other less serious concerns, resulting in continued exposure and increase of health related issues. This is why we are partnering with organizations to get the word out about how to protect CNY residents from the dangers of lead paint exposure.

**Outcomes to Date:**

- Thousands of Residents Informed on Lead Poisoning

### STRATEGY 3: WORKFORCE DEVELOPMENT & LANDLORD EDUCATION

**Amount Invested to Date: \$127,050**

It is imperative that the workforce and property owners are educated and knowledgeable in all aspects of the presence and appropriate removal of lead paint. In order to deliver the necessary tools to the CNY workforce, we are giving resources to organizations that provide training and materials to these professionals.

**Outcomes to Date:**

- 135 Individuals Trained on Proper Lead Paint Removal

### STRATEGY 5: HEALTH, SAFETY AND OTHER

**Amount Invested to Date: \$118,125**

We are assisting local agencies in helping residents get tested and in safe homes.

### \$500,000 LOAN LOSS RESERVE

Will help Home HeadQuarters provide first mortgages to buyers of new, lead-free homes in the City of Syracuse

### STRATEGY 4: PUBLIC POLICY & LEGISLATION

**Amount Invested to Date: \$50,000**

We are advocating for lead violation and housing code enforcement

**Outcomes to Date:**

- Member of statewide aligned fund
- Advocated for new lead ordinance, making presence of lead a housing code violation
